WORK EXPERIENCE

Wipro Technologies, Project Engineer

JUN 2017 - PRESENT

PROJECT #1

L'Oreal (Consumer Goods Domain)

Key Technologies: MS SQL Server, Power BI, ETL, SSRS

Sept 2018 - April 2021

- As a BI Developer, I have created, published, scheduled new reports, KPI scorecards, and dashboards also altered existing ones using Power BI with MS SQL Server as backend.
- Collaboratively worked with client and SNOW team for formulating business requirements in BI tools.
- Integrated service now with Power BI to develop new reports as per business needs.
- Assisted users with their report issues in production which may be related to any data or functional gaps.
- Completed new enhancements and fixed production bugs in the stipulated timeline.
- Proficiently used DAX queries and functions in various BI reports.
- Analyzed functions, views and was closely working with DBA for issues in the SSRS reports.

PROJECT #2

Credit Suisse (Banking & Financial Domain)

Key Technologies: MS SQL Server, .Net

Sept 2017 - Aug 2018

- As a SQL Developer, I was helping users with their issues related to any Data or functionalities.
- Designed and implemented minor enhancements, demands by closely collaborating with users, infra team, and project team.
- Analyzed logics and altered various DB schemas & objects to provide permanent resolution and root cause analysis for problem tickets.
- Involved in peer-to-peer change review and deployed DB tasks in various non-prod environments.
