Professional Summary

I have 1 year of hands on experience in Java Development. In every project along with Java development I was assigned the role of development, documentation, authentication and versioning. I have worked on Spring Boot and its Spring Rest API system. Highly innovative software engineering student with a Master degree in computer science. Focused and dedicated with a desire to gain a strong technical foundation. Seeking an role within a software firm where success is paramount.

Academic Credentials

2012-2017	(BCA+MCA), TMU Moradabad(UP)
2011-2012	XII(PCM), SVMIC Inter College(UP).
2009-2010	X , SVMIC Inter College(UP).

Technical Proficiency

- **Programming languages:-** Java
- **Hand on experience:-** Collections, Spring, JSON, Jackson, Multi Threading, Spring Restful, Spring MVC ,Spring Boot –web and JPA, ElasticSearch.
- **Framework:-** SpringRest, SpringBoot, Hibernate
- **Operation systems / platforms:-** Windows, Linux(Ubuntu 18.04)
- **RDBMS:-** MySql.
- **Hardware:-** Windows, Linux
- **Java logging:-** log4j, log4j2
- **Servlet containers:-** Tomcat
- **Tools:-** Eclipse, Maven
- **Security:-** AWS Cognito
- **Version Control System:-** SVN, GIT.
- **Client Server :-** POST MAN

Work History

GlobalHuntIndiaPvt.Ltd., OkhlaPhase 2
Software Developer.
January 2020 - PRESENT

Project

Title: Client: Team Size: Duration: Technology:	Elastic APIs GlobalHunt India Pvt. Ltd. 2 April-2020 to Till Now ElasticSearch,Aws-Cognito Authentication,Spring,Spring-Rest-APIs,JPA,MySQL,
Framework:	Spring,Hibernate
Responsibility:	<ul style="list-style-type: none">• Created Rest High Level Clients for ElasticSearch.• Performing changes based on the upcoming requirements.• Secured all the APIs with Aws Cognito Authentication.• Wrote documentation for the dependencies.• Optimised the logic of the code.• Wrote documentation for the flow of code.
Description:	<p>This project was created for performing search operations as globalsearch as all searches were dynamic in nature data was fetched from any collection in the database. There were almost 6-7 APIs made to perform searching operation.</p> <p>Some searches were from elasticsearch has Aggregation nature. To perform searching from elasticsearch we used Rest High Level Client for elasticsearch instead of using predefined Elastic Apis. Later created Rest Apis in Springboot .</p> <p>To perform searching from MySQL we used Spring JPA. In both cases APIs were fetching data from database based on some search parameter.</p> <p>All the APIs were secured with token for AWS Authentication. All the APIs were dynamic In nature that it brings data on search from multiple tables.</p>

DUCAT, NOIDA
SOFTWARE TRAINEE
JULY 2019-JANUARY 2020

As a trainee, my role was to attend regular classes and understand the basics of industry oriented software development. I worked on many mini and small projects during my tenure there, understanding the nuances of JAVA based applications. I worked on servlets and then proceeded to develop projects on Spring Boot platform.

InterpersonalSkills

- Ability to rapidly build relationship and set up trust
- Confident and Determined
- Ability to cope up with different situations
- Can perform under limited resources
- Continuous learner with constant zest to acquire new skills

Certification

- Completed 6 month training program in Java.

Interests

- Reading QUORA.
- Listening music.
- Explore New Things.

Biographics

- Father's Name : SHRI SUSHEEL KUMAR VISHNOI
- Mother's Name : SMT. UMA RANI
- Date of Birth : 03/09/1994
- Marital Status : Unmarried
- Languages Known : English, Hindi,
- Nationality : Indian
- Permanent Address : Katghar Indra Colony Moradabad

PLACE: NEW DELHI

DATE:
