| Bug Tracking | : Mantis, Scrum, JIRA. |
| IDE | : Eclipse, Android Studio, IntelliJ |
| Automation | : Selenium, Protractor,Appium |
| Testing | : Android. IOS, Windows, Tab and Web portal |
| Domain | :Banking (Canara Bank, UPI, BHIM,) |

Employment Profile

- Manual + Automation - NETWORK PEOPLE TECHNOLOGY SERVICE PVT LTD NOIDA. From Dec 2016 to till date.

Projects Handled

| | |
|----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Title | : Canara Bank Application (OPEX) |
| About Project | : Can Mobile is a Mobile Banking Services that Helps to do Banking Transactions like Balance Enquiry(Should have Account in Canara Bank), Mini- Statement, Fund Transfer(Within Canara), Fund Transfer(Other Bank). |
| Environment | : Mobile application developed on JAVA platform |
| Tools | : BlackBox Testing, Functional Testing, Manual Testing, Load Testing (Jmeter) for Multiple Transaction ID, Automation using Appium and Selenium , Eclipse |

Team Size : 3
Duration : Mar 17 to Till now
Technology Stack : Java
Responsibilities:

- Requirement Gathering and Analysis.
- Understanding the new Requirement Specifications.
- Preparing Functional Document based the understanding.
- Actively involved in preparing, documenting and execution of the Test cases & Test Scenarios.
- Updating and Executing the Test Cases.
- Responsible for Smoke Testing, Functionality Testing and Regression testing.
- Bug allocation, tracking, Revisiting and verify the bugs.
- Preparing weekly report and Scribe the meeting on Every Monday.
- Deliver the module as per requirement.
- Write Script for Automation testing use Appium(Selenium Web Driver)

Title : **Wallet Management**
Environment : Web based application developed on JAVA.
Team Size : 3
Duration : Oct 17to Till Now
Responsibilities:

- Design Test cases based on the user stories and requirements.
- Preparation of test data.
- Bug tracking and reporting using Mantis
- Verifying bug fixes for defects raised and fixing/updating automated test scripts with each new deployment
- Write Script for Automation testing use Appium(Selenium Web Driver)

Title : **Parking Web Application.**
Environment : Mobile based software
Tools : Functional Testing, BlackBox Testing, Manual Testing, Regression Testing.
Team Size : 3
Duration : 3 Months
Responsibilities :

- Design Test cases based on the user stories and requirements.
- Preparation of test data.
- Bug tracking and reporting using Mantis
- Verifying bug fixes for defects raised
- Write Script for Automation testing use Appium(Selenium Web Driver)

Title : **Parking Application.**
About : It is a smart Application that allows user to do Parking Payments through App.
Environment : Mobile based software
Tools : Functional Testing, BlackBox Testing, Manual Testing, Regression Testing .
Team Size : 3
Duration : 5 Months
Responsibilities :

- Preparing and Reviewing Test Cases as per documents. Involved in GUI, Validation testing.
- Reporting the bugs.
- Write Script for Automation testing use Appium(Selenium Web Driver) .

Title : Capex Application(Merger of Canara Bank+UPI).
Environment : Mobile based software
Tools : Functional Testing, Smoke Testing, Manual Testing, Regression Testing
Team Size : 3
Duration : Oct 17 and till Now and now Canara Bank is Completed
Responsibilities:

- Preparing and Reviewing Test Cases as per documents and Wireframes.
- Reporting the bugs in Mantis.
- Defects Fixes in Mantis Reported
- Jmeter Tool used to Test Load.
- Write Script for Automation testing use Appium(Selenium Web Driver)

Academic

| | | | |
|--|-----------|------------------|-----------------------------|
| | 2014-2016 | M.C.A | Vaish Engg. College,Rohtak |
