### SUMMARY

- An ambitious professional with **3+ years of experience of working in banking and financial domain** and experience in Functional Testing, Black Box Testing, Regression Testing, Unit Testing, Integration Testing, Smoke Testing, Sanity Testing, System Testing, Analysis, ORACLE-PL/SQL, Application usage, Reports development.
- Hands on Experience in QC-ALM tool, well acquainted by Test Case Flow in ALM tool and Confluence
- Successful in **managing projects task independently** and delivering in timely manner.
- Expertise in all phases of software development life cycle. Insightful experience in gathering requirements, project planning, unit testing and integration testing.
- Proficient in building and maintaining professional relationships.

---

### TECHNICAL SKILL SET

Operating Systems	Windows, Unix
Skills	Functional Testing, Black Box Testing, Regression testing, Unit Testing, Smoke Testing, Sanity Testing, SQL, Oracle PL/SQL,
Applications	Tectia, MS-Excel, Grafana, Moogsoft, Control-M
Testing Tool	<b>QC-ALM</b>
Agile Tool	JIRA, Confluence, Sprint Model

---

### PROFESSIONAL EXPERIENCE

HCL Technologies Ltd, Pune.  
Software Engineer

June 18--Present

#### Data Management Services Mentis

June 18 – April 21

**Description:** As per the guidelines of the Federal Data Protection Act (DPA) and the Data Protection Ordinance (DPO) in Switzerland, the private data cannot travel across Swiss boundary without a adequate level of data protection. The sensitive data needs to be masked to ensure its privacy. Mentis is a web-based application which performs the discovery, masking and monitoring of sensitive data without having direct access of the data.

**Technologies:** SQL, Oracle PL/SQL, Tectia, MS Excel.

**Role:** Quality Assurance/Functional Testing.

#### **Responsibilities:**

- Analysing application data and maintaining data security to ensure data privacy of client's applications.
- Part of rigorous testing of all the functionality of Mentis Product across DEV to UAT environment.
- Scanning of various applications for Oracle, SQL and Feed Files to identify sensitive Data.
- Preparing the Scan report with respective data classifications and customizing the report to get feedback from client and a TESM [Regulatory Body] review for approval.
- Finalizing the template with appropriate Masking Methods as per client's requirements.
- Working on client meetings and preparing the documents including the KEDB Documents, KT and Status Presentations.

- Handling client issues and providing timely and effective solutions.

### **IWM Research Applications**

**May 21 – Present**

**Technologies:** MS-SQL, Grafana, Moogsoft, Control-M

**Role:** L1 and L2 Support.

**Responsibilities:**

- Ticket monitoring.
  - Resolving tickets regarding missing data from upstream and downstream applications.
  - Resolving tickets related to access issues of different applications.
- 

### **EDUCATIONAL CREDENTIALS**

- **Bachelors of Engineering in Civil**

**2012-2016**

Manoharbai Patel Institute of Engineering and Technology, Bhandara, MH
