PROJECTS Details

A.	Project Name	:	Skyscrapers Portal USA
	Domain	:	Real Estate
	Client	:	Koetter
	Project Duration	:	6 Months

Project Description :

This site provides a collection of skyscrapers in the United States and enables you to browse them by city, architect and various other factors. While much of the skyscraper data should be accurate, it is not necessarily comprehensive, up-to-date or complete. This site was built to serve as a demonstration of Process Wire in addition to providing insight into US skyscrapers. This site is not intended to be a model of good design nor is it attempting to push any envelopes. Instead, the site was intentionally kept quick and simple in the way it's designed/developed to best function as a demonstration of Process Wire. While the scale and functionality of this site is fairly basic, this site will continue to expand for demonstration purposes.

Roles and Responsibility :

- Performing System Testing on the build
- Performing testing on products like Architects , Skyscrapers , Cities
- Performing Functionality Testing, Re-testing and Regression testing
- Involved in System Integration Testing, Compatibility Testing
- Ensure test case written covers all requirements.

B.	Project Name	:	Franchise Dealer Management software
	Domain	:	ERP (Enterprise Resource Planning)
	Client	:	Ziper Company
	Project Duration	:	12 Months

Project Description :

ZenoxERP helps institutions to be able to manage things such as time management, franchise expenditures, fees schedules, subject, and courses. By doing all this, ZenoxERP allows the students, the parents, teachers, school administration, and the management to be able to perform and to focus on their primary aspect of monitoring and delivering high quality education. It is also important to note that this amazing software has been designed taking into account the core needs of all stakeholders and users.

Roles and Responsibility :

- Performing System Testing on the build
- Performing testing on products like Admission , Fee Report , Fee Schedule Report , Teachers Management , Parental Management .
- Performing Functionality Testing, Re-testing and Regression testing
- Involved in System Integration Testing, Compatibility Testing
- Ensure test case written covers all requirements.

C. Project Name : **Stock Management System**
 Domain : **ERP (Enterprise Resource Planning)**
 Client : **Everon**
 Project Duration : **6 Months**

Project Description :

Inventory management is a collection of tools techniques and strategies for storing , tracking , delivering and ordering inventory or stock . Inventory management software which provides a central database and point of reference for all inventory coupled with the ability to analyse data , generate report , forecast future demand and more.

Roles and Responsibility :

- Performing System Testing on the build
- Performing testing on products like Admission , Fee Report , Fee Schedule Report , Teachers Management , Parental Management .
- Performing Functionality Testing, Re-testing and Regression testing
- Involved in System Integration Testing, Compatibility Testing
- Ensure test case written covers all requirements.

EDUCATION

- Attended Bachelor's Degree in Computer Science from Dr.Babasaheb Ambedkar Marathwada university ,Aurangabad in 2020.

Personal Details

- Address : 121 Nandgaon , Post Nadgaon , Tal Bodwad , Dist Jalgaon 425310.
- Father Name : Mr.Narayan Mohansing Patil.
- DOB : 04/03/1998.
- Blood Group : O+ve .
