## About me

I have extensive experience in designing for **mobile app UI** as per guidelines, especially **Google's Android Material Design**. I'm also an expert in designing icons and working in **vector designs** in **Adobe Illustrator**. I also have hands on experience in **editing videos**, using **Adobe Premiere**.

I'm a very quick learner and extremely committed to the quality of work I do. I started my career by doing basic graphics designing and now I'm an integral part of a multinational company making products for global users. Quite proud to say those are my designs.

I'm looking forward for better opportunities and challenges so that in a way it is mutually beneficial to myself and my employer and allow for future growth and advancement
