Mukul Mandir, Aurangabad.

2010

## SKILLS

CoreJAVA

JavaScript

TypeScript

Hibernate

HTML

Angular

MySQL

CSS

## PROJECT

### LogSheet

- Log sheet is a web application, this system helps for the analysis of course and overall faculty performance based on multiple parameters. In the log sheet, the faculty has to add their daily work into it. The application helps to calculate module wise performance and used to calculate SSI (Student satisfaction index). Using the data to get from the log sheet the course coordinator can generate the progress reports of a course, can find the summary of the given date. The faculty can see their individual feedback of the module he taught. It can generate the faculty planning report and course planning report. The main and important advantage of this log sheet is that the report generated by using this application is useful for the batch-wise audit of the institute

## ACHIEVEMENTS

- Part of Events in Sunbeam Infotech.
- Participate in workshop on sound engineering.
- Participate in workshop on computer network and desktop assembly.
