Oracle and Ms SQL Database Administration

Princesingla25@gmail.com

A persuasive techno with 3+ years of Database administrator and data analysis experience on various applications and looking forward for an opportunity in a cutting edge technology and environment, wherein I can utilize my experience and skill set in contribution to the success of the organization which could strengthen my personal skills

EDUCATIONAL BACKGROUND

- MCA from B. S. Anangpuria Institute of Engineering & Technology – Faridabad in 2015 with 63%
- BCA from Aggarwal P.G College (M.D.U University, Rohtak) in 2013 with 71.2%
- Senior Secondary from Aggarwal Senior Secondary School, Faridabad in 2010 with 64%
- Secondary from S.S.V.M High School, Faridabad in 2007 with 58%

EXECUTIVE PROFILE

- Worked on 11g, 12c Oracle database on platforms of Linux and Windows Platform.
- Database Monitoring – 24*7 monitoring, implementation and upgradation support of servers.
- Design and implementation of database backup strategy and performed full, incremental and Cumulative backups using RMAN and Troubleshooting with RMAN backup problem.
- Estimate Storage requirement, Creation of Tablespaces and other Database Primary Objects.
- Installation of Oracle on user system Windows/Linux environment, checking connectivity to database etc.
- Managing database objects including datafile and tablespace, object sizing as well as monitoring database sizing and growth.
- Interacting with Team members and Developer Team on various issues.
- Installation of Oracle Database and Client software on user system.
- Monitoring of all server disk space or mount point & logs.
- Checking for errors in Alert logs and Trace file..
- Taking logical backups using datapump utility.
- Check all scheduled jobs whether executed or not.
- Enforcing security by creating roles, granting system and object privileges on the tables and stored procedures.
- Refreshed development and test databases from production using logical backups (export and import).
- Making & sending report, sheets to Team Lead.
- Monitor Server space.
- I have a good knowledge on Ms SQL server Databases which is 2008 and 2012, 2016.
- Expert in installation and configuration of sql servers
- have a experience in creation of databases and logins for the users with proper permissions

KEY IMPACT AREAS

performance optimization

Shrinking databases

Backup, Restorations

All maintenance plans

Logins with permissions

Creation of databases

Installation, configuration

Project Management

TECHNICAL SKILLS

Tools: SQL*PLUS, SQL Developer, RMAN, DBCA, NETCA, ASMCA, Expdp, Impdp, Putty, Toad, Secure CRT, SSMS, Windows 2008R2.

Database: DBA-ORACLE 10G, 11G and 12c, SQLSERVER 2008, 2014, 2016

Operating Systems, Platforms- Windows XP/ VISTA/ 7/8, RHEL4/5/6, Solaris, Window Server 2003/2008/2012, HP-UX

- I have a good knowledge on database backup and restoration and attach database and detach database of sql server
- Good knowledge on creation of all maintenance plans with scheduled jobs
- expertise in daily monitoring tasks like blockings, running jobs, maintenance of database, disk space issues.
- worked on shrinking of database log files for log space.

TECHNICAL SUMMARY

- Oracle 11g,12c and SQLServer database 2014 and 2016 Implementation, Upgradation and Monitoring.
- Recovery Manager (RMAN).
- Database Binary Installation and end to end database setup.
- PData refresh using Data pump(expdp & impdp) and (exp & imp).
- Backup and Recovery using cold, hot& RMAN.
- Using of putty, SQL Developer & Toad.
- OS installation (windows & Linux)

PERSONAL DETAILS

Date of Birth: 25 Aug 1990
Languages Known: English and Hindi
Address: H.no 96 Sihi Gate Bazar Ballabgrah(Faridabad)

I do hereby confirm that the information given in this form is true to the best of my knowledge and belief.
