To associate with an organization that provides an opportunity to show techno-proficient skills, to improve knowledge with the latest trends and to be a part of the team that works dynamically towards the growth of the organization.

SYNOPSIS

- 10 years of total experience across Database Design, Development, Administration and Support of MS SQL Server 2016 /2012 Oracle 10g and Postgresql 9.6 out of which last 5 years of experience in Database Administration.
- Core Competencies Include: Elicit requirement, Technical solution design, Tuning T-SQL queries, Performance tuning using SQL Profiler, Complex SQL Queries and Procedures, Server/Client Configurations, Clustered and Non-Clustered Indexes, Database backup and recovery, database health check, Always on high availability, DR Activities, Replication, Complex reports/dashboards, Application testing and Production Support
- Part of Requirement discussions, Technical solution design, Impact analysis, Development, Testing, Deployment and Post go-live support.
- Good exposure in working in multi-stakeholder and multi-vendor environment.
- Provide 24x7 supports for critical production systems.
- Responsible for configuring, integrating, Streaming Replication and maintaining all Development, QA, Staging and Production Postgresql databases within the organization.
- Expert in data transformation services and Bulk Loads with SSIS and ETL operations.
- Independently analyze, solve, and correct issues in real time, providing problem resolution end-to-end.

SKILL SETS

No	Skill Area	Technology
1	RDBMS	MS SQL Server 2016/2012, Oracle 10g, Postgres 9.6
2	DBA Tools	Enterprise Manager, Profiler, Query Analyzer, Oracle SQL Developer, SQL Server Management Studio, Debug Diagnostics tool, SQL Sentry plan explorer.
3	Operating Systems	Windows Server 2012, Linux Red hat 7
4	Documentation Tools	MS Word, MS Excel, MS PowerPoint

WORK EXPERIENCE SUMMARY:

No	Company Name	From	To	Designation
1	Rosmerta Technologies Ltd, Gurgaon	Sep 2019	current	Manager IT-Infra
2	Epoch Research Pvt Ltd, civil lines Delhi	Mar 2017	Sep 2019	DBA
3	Rosmerta Technologies Ltd, Gurgaon	June 2015	Feb 2017	DBA
4	Maxmobility Pvt Ltd, Noida	Mar 2012	July 2014	Technical Support
5	Geovision Technologies Pvt Ltd, Noida	Oct 2007	Feb 2012	Technical Support

EDUCATION:

No	Examination	Board/College	Passing Year	Marks	Grade
1	B.SC (Science)	Calorx Teacher University	2012	63.00	1 st class
2	H.S.C.	BIEC	1998	52.00	2 nd class
3	S.S.C.	BSEB	1995	58.00	2 nd class

WORK EXPERIENCE:

1	Project Name	ELCOT, MSRTC, IOCL, HPCL, HRTC, AFM (Auto Fare Meter), JP Dairy, ORSAC, ULB
	Client	Pan India (Govt. project)
	Company	Rosmerta Technologies LTD
	Description of the project	
	Rosmerta company provides VTS Domain Services across India. It manages the vehicle tracking system of various industries. Team has the responsibility to build new features related to the VTS domain, provide Real time tracking, RFID based School Transport Automation, Various alerts: Email & SMS notifications in case of main power disconnection, ignition ON/OFF, AC misuse, immobilizer, fuel pilferage, device tampering, 24*7 surveillance & customer support	
	Role	Manager IT-Infra/DBA
	Team Size	28
	Responsibilities	<ul style="list-style-type: none"> ➤ Maintained SQL Server Database and automated numerous jobs. ➤ Fine tuning of database objects and server to ensure efficient data retrieval. ➤ Monitor and optimize system performance using SQL Profiler and Database Engine Tuning Advisor. Also performed database logical & physical design, maintenance, tuning, archiving, backups, replication, recovery, software upgrades. ➤ Involved in Always-on high availability issues/maintenance. ➤ Designed and implemented Transaction log, full back up policies and procedures. ➤ Requirement analysis, Estimations and solution. ➤ Implemented new requirements and written various stored procedures, triggers and functions. ➤ Performance optimization and code review ➤ Deployment and post production support. ➤ Worked on agile and followed agile measures ➤ Tracking of stories and new requirements in JIRA ➤ Communicated with client over conference call and emails. ➤ Experience in team handling, resource planning and hiring.
2	Project Name	IPPB (India post Payment Bank)
	Client	DXC
	Company	Epoch Research Pvt Ltd
	Description of the project	
	<p>About Program: To the last mile financial inclusion and connectivity to the remotest parts of the country with institutional finance for its people.</p> <p>Communicate client's business requirements by constructing easy-to-understand data and process models.</p> <p>Analyze client's business requirements and processes through document analysis, and workflow analysis about banking domain.</p>	
	Role	DBA
	Team Size	12
	Responsibilities	<ul style="list-style-type: none"> ➤ Translate client requirements into system Configurations, Integrations, Rules, Fields, Reports, Dashboards and other custom developments. Coordinated with various internal departments to ensure delivery. ➤ Deliver Technical artifacts like Technical Interface Documents, Work Unit Documents, Report Requirement Documents and Technical Impact Analysis. ➤ Checking Alert log, trace files, listener log and other database job logs. ➤ User creation and providing necessary Roles, Privileges and quota as per the Requirement. ➤ Perform RMAN Backup and Recovery. ➤ Dealt with Client in fixing the crucial production environment issues. Provided Production support during build Movement on production server during downtime.

System Admin:

Responsibilities:

- Managed servers, workstations, computers, laptops, printers, routers, switches and existing network applications.
- Conducted daily system health checks.
- Diagnosed and resolved all technical issues related to hardware and software.
- Supported all LAN, WAN and other networking systems.
- Ensured security and integrity of network.
- Performed quarterly audits for the purpose of improving efficiency of systems.
- Rebuilt new hardware and reconfigured hardware, peripherals, settings and directories according to standards and operational requirements.
- Performed daily audit on all systems, frameworks, and hardware and server resources.
- Reviewed server and application logs.
- Initiates backup process, data recoveries and other disaster recovery contingencies.
- Server Maintenance, Space Management, Raid Configuration and Hardware assembling.
- Building, configuring, patching, upgrading and troubleshooting of physical and virtual Windows servers (rack mounts/blades, and VMs)
- Installing, configuring and deploying new PCs & Servers
- Monitor server event logs, performance logs, growth of data on the network.
- Experience and sound working knowledge of the following areas: Windows Server administration including Active Directory and the use of Group Policies Backup/recovery technologies; TCP/IP, routing, switching, DHCP and DNS.
- FTP configuration
- IIS and wamp server configuration
- Working on RedHat Linux , Centos 6.10
