Papa John's

Team Size: 5

Papa John's is an online customer portal for fast food Order and delivery wherein a user can order and in return earns points for making each purchase. These points can be converted into PapaDough and later PapaDough can be used to reduce amount on any purchase made by the user. A new user has to register using a 12 digit earn code that is available on receipts at stores for any non loyalty customer and later follow the above process .
