Name of the Company	Designation	Address of the employer	From	To
MargyTech Private Limited	Junior Software Engineer	Mumbai	Nov 2017	May 2019
Great Innovus Solutions Private Limited	Associate Software Engineer	Madurai	May 2019	Feb 2020
MargyTech Private Limited	Software Engineer	Madurai	Feb 2020	Still Now

• **PROJECT PROFILE:**

Project Title	ILIMS
Duration	12 Months
Location	Mumbai
Hardware	Visual Studio 2015
Operating Systems	Windows
Programming Languages	C#,ASP Dot Net

PROJECT DESCRIPTION:

ILIMS-INTEGRATED Laboratory Information Management System . It is a cloud based application which addresses all major functional areas of Laboratory. Software is designed to computerize the modern small, medium and large scale Laboratories. This software helps in online communication to clients in no time and tracking business (patient / client wise, city wise, Zone wise, Test wise).The main feature includes Test list for processing, invoicing, inventory, accounting, Barcode Verification, Instruments Integration, and Pre analytical - Sample receiving and sorting

ROLES AND RESPONSIBILITIES:

- To gather the requirements from the client.
- Work on databases to create procedures, functions etc.
- Design a project plan and proposed a deadline to achieve the mapped work within the Given timeframe
- Involved in developing and deploying product in client location
- To give the demo to the client for gathering new clients and projects.

• **PROJECT PROFILE:**

Project Title	INVENTORY
Duration	6 Months
Location	Mumbai
Hardware	Visual Studio 2015
Operating Systems	Windows
Programming Languages	C#,ASP Dot Net

PROJECT DESCRIPTION:

It is a cloud based application which addresses all major functional areas of Goods management at laboratory. Software is designed to computerize the stock management at large scale Laboratories. This software helps the client online to track the goods inwards and distribute goods to the requested branches. The main feature includes monitoring each material's stock maintenance, stock values and also tracking the consumption of the material in the main laboratory by date or month wise.

ROLES AND RESPONSIBILITIES:

- To gather the requirements from the client.
- Work on databases to create procedures, functions etc.
- Design a project plan and proposed a deadline to achieve the mapped work within the given timeframe
- Involved in developing and deploying product in client location
- To give the demo to the client for gathering new clients and projects.

PROJECT PROFILE:

Project Title	Prowatch
Duration	6 Months
Location	Madurai
Hardware	Visual Studio 2017
Operating Systems	Windows
Programming Languages	C#,ASP Dot Net

PROJECT DESCRIPTION:

The Software is a connected building platform for enterprise and critical infrastructure customers. It helps you meet the most stringent compliance requirements for your industry.

ROLES AND RESPONSIBILITIES:

- To gather the requirements from the client.
- In this project I did a little bit of work like Localization of a project using a resource file.

Date:

Yours Sincerely,

Place:
