Work Experience (In detail)

Currently, I am rendering my service as Project Manager (Software Solutions) at Scanpoint Geomatics Ltd, Ahmedabad for developing of various GIS based Govt. Smart City Projects for Agra, Lucknow, Pune, Dehradun, Jhansi, Biharshariff and Surat Municipal Corporation etc. I am currently handling 6 projects with a team of 45 resources including developers, team lead, QA Team etc. My duties include preparation of documents i.e., SRS, FRS etc., development and deployment of E-Governance projects. I prepare cost and effort estimation, WBS etc. using Microsoft Project Plan. I use JIRA for sprint planning. I also provide basic training to new resources in my organization. I also provide guidance for integration of our APIs with all third-party vendors of other projects. I also manage the relationship and communication with the client and all stakeholders, ensuring the project is delivered to their satisfaction. I also prepare documents related to process knowledge of ISO 9001 audit. In a short span of 2 years, my team has finished 6 GIS projects worth 4 crore each, from requirement gathering to deployment on client's server successfully.

I had worked as Project Manager at FMPBW Pvt. Ltd, Rajkot for overall development of ERP and responsible for activities related to IT Department. My company was dealing with Germany based clients. I got an exposure of working with foreign clients. It was a contractual position for one year.

I lead a team of 11 developers in RKIT Software Pvt. Ltd. to develop ERP Project of Accounting for Gopal Snacks Pvt. Ltd. I have developed GST related modules for accounting software.

I had worked at Microtech IT Systems Pvt. Ltd., Ahmedabad for it's client Jamnagar Municipal Corp. as a Team Lead for E-Governance Project of various citizen centric and internal modules. I have developed Complaint Management System, Professional Tax Module, Document Management System, Inventory Management System and Legal Cases Management Module independently. I got an experience of working with Govt. organization, aspects of security, audit etc. It was an onsite development ERP project.

Due to our team efforts, Jamnagar Municipal Corp. has won **Scotch Awards at National level for E-Governance and M-Governance**. We were the first to introduce Mobile Van Collection concept for Jamnagar Municipal Corporation in Gujarat.

Apart from the above, I have actively taken part in pre-bid meeting, data migration and project implementation at various stages.
