PERSONAL PROJECTS

Golden Matrimonial Service Web System

(03/2019 – 09/2019)

- Built "Golden Matrimonial Service Web System" using PHP, HTML, MySQL, JavaScript. It is designed to attract people to participate in matrimonial services online using the website. This system provides a platform where end-user or individual user search bride or groom for self or other family members. This system is very beneficial for our society to complete the bride & groom finding.
