WORK EXPERIENCE

- 2021 **Tutor**
Studypool
(January - Present)
Help students with their Computer Science and Mathematics based assignments. Few students whom I taught scored 80+% in their university exams.
- 2020 **Wordpress Developer**
Freelancer
(June - Present)
Help clients in building their websites using Wordpress page builders (elementor, wp page builder) ,woocommerce & and many extra plugins.
- 2020 **WordPress Developer**
Floating Works - Internship
(August - September)
Successfully completed 3 E-commerce projects using different plugins and page builders and as a part of it designed UI, Logos, Creatives by understanding design briefs and specification given directly by clients
- 2020 **Graphic Designer**
EBarristers - Internship
(April - May)
Was well equipped with illustrations, brochures, logos, and posters.

PERSONAL PROJECTS

- PDF Scraper-PieChart (Link)**
During my graduation I worked on a Project which reduced teacher's manual efforts of Scrapping data from the PDF file that is issued by Delhi University every year to extract particular information, analyzed and visualized it using Pie Chart. (Language Used Python)
- Restaurant (Link)**
Built while Learning Front-End Web Development with React. Single Page Application with Home, About Us, Menu and Contact Us Pages.It works with JSON server to access data.
React Components - React Router - Forms - Redux - Redux Form - Redux Actions - Redux Thunk
Client server Communication - Fetch - React Animation - Bootstrap - Jquery - NodeJS
- Candidate-API (Link)**
What Does API perform:-
1.Insert a candidate into the database.
2.Assign score for a candidate based on the test.
3.Get the highest scoring candidate and average scores per round for all candidates. (Node.js API using express and MYSQL)
- Chat-App (Link)**
Built using React and deployed on Firebase. Also integrated google authentication via. Firebase.
Live Link - <https://chat-app-c8489.web.app/>

“

I believe that intensive study and comprehensive research work in my field of interest would put me on the right track to achieve my goals.

I have worked as a tutor and a freelancer WordPress Developer for more than two years. I spend most of my time experimenting with HTML, CSS, Bootstrap, and JavaScript and its framework like express.js, node and REACT.

EDUCATION

- Bachelors of Computer Science Honours
University of Delhi
