Internship, Project and Training Details

Internship: 3 months Internship in Frontend Development from Aximo Infotech Pvt. Ltd., Noida. Developed a project named Commtechsoft (Report Stolen Vehicle).

Projects:

Title: Commtechsoft(Report Stolen Vehicle) Database

Description: Commtechsoft is an independent Global Motor Vehicle Database – GMVD designed to create records for the protection of vehicles and motorbikes through an enrolment process on our database to ensure security against illegal transfer of automobiles and motorcycle ownership, and car theft. Vehicle and Motorcycle owners can sign-up to our service to entrust the responsibility to monitor enquiries or transactions about their cars by intending buyers using our services. Our commitment is to inform such a customer or the registered owner on our database of the verification request and keep a database for stolen vehicles/motorcycles. This service is recommended to potential buyers of used cars and motorcycles to protect them from the ignorant buying of stolen automobiles and protect new cars against car theft.

Technology used: HTML , CSS , BOOTSTRAP , JAVASCRIPT , LARAVEL , MYSQL

Tools used:

- Visual Studio Code for coding
- Apache/Xampp for Local server
- MySQL Administrator for storing data.
