

SURENDRA

**Java Software Developer**

MOBILE NO.:+91-9351793419

EMAIL: [chauhan16kumar@gmail.com](mailto:chauhan16kumar@gmail.com)

## Professional Summary

Having **4.3** years of IT experience in complete software development life cycle with developing server side applications using JAVA/J2EE technologies in windows environment.

Experience in MVC (Model View Controller) architecture, Struts2.3 and Struts1.3, Spring Mvc extensive experience in programming with Struts, Servlets, JSP, jdbc, Json, JavaScript aws web services ,MySQL web services .

Experience of working on distributed revision control and source code management system like **GIT, SVN** Worked on IDE's Such as My Eclipse and Net Beans.

Possess strong inter-personal communication skills with proficiency at grasping new technologies and utilizing the same in productive manner.

## Technical Skill

Operating Environments	Windows XP and 7
Programming Languages	Core Java,J2EE
Database	MySql,Oracle
Web technologies	JSP, Servlets, HTML5 J-query , Ajax
Server	Apache Tomcat Server
IDE Tools	Eclipse IDE, Net Beans
Open Source technologies	Struts2.3, Spring Mvc
Web services	AWS, MYSQL MAGNET

## Work Experience

<b>Access Infotech pvt Ltd</b>	Jun 2020-- till Now
<b>Kmv Software System</b>	December 2019 --may 2020
<b>Nippon data System</b>	Sep 2019-- November2019
<b>HashTrix Technology, Pune</b>	Jan 2017-- march 2019

## Projects Summary

### ❖ Project : HRMS(Government of Haryana )

- **Role** Design &Development
- **Team Size:** self

**Description:** Designing and developing web applications Using Java (J2EE), thymeleaf,html, JavaScript, Ajax, bootstrap ,CSS.

Working in Java Technologies by using Spring boot and Hibernate Framework, Maven. Designed and build dynamic Jasper Reports in multiple formats such as .txt, .doc, .pdf, .xls . Designed & implemented the module to read the files (XML, CSV, and Excel) from SFTP using File Net Integration.

### ❖ Project : AG Interface Project (Rajasthan Government)

- **Role** Design &Development
- **Team Size:** 15

**Description:** Designing and developing of high-volume, low-latency Web applications Using Java (J2EE), JavaScript, Ajax, CSS.

Working in Java Technologies by using Spring MVC Framework, Maven. Designed and build dynamic Jasper Reports in multiple formats such as .txt, .doc, .pdf, .xls . Designed & implemented the module to read the files (XML, CSV, and Excel) from SFTP using File Net Integration.

Experience in working with version control like GIT & SVN.

Have experience on working with databases like MySQL (Oracle 11G).

### ❖ Project : Agency CRM

- **Role** Design &Development
- **Team Size:** 10

**Description:** Agencycrm is admin panel

Which contains Dashboard, Carriers, Agents, Products, Clients, Policies, Transactions, and Commissions Reports, Users, Roles.

Added Filter find client company name, Agent Number, Policy Number, Status (Active/inactive)

The project uses J2EE technologies Like, Servlet, JSP, Struts 1.3,MySQLprocedures, and MySQL as Database with MySQL Workbench tool. And MySQL web services, aws web services.

### **Responsibilities:**

- ↳ Understanding and designing the screens as per the requirements in JSP.
- ↳ Programming and Implementing the application and functionality using Java, J2EE, Struts2.
- ↳ Creating and managing the database using MySQL.
- ↳ Handling and solving all technical as well as logical problems in the team.

### ❖ **Project : Training**

- **Role** Design &Development

- **Team Size:** 8

**Description** Training has web application in which provide Training student.

Which contains users, roles content module :documents, video, users, roles modules

The project uses J2EE technologies Like, Servlet, JSP, Struts 1.3, MySQL procedures, and MySQL as Database with MySQL Workbench tool. And MySQL web services, aws web services.

### ❖ **Project: Rajasthan Accountability Assurance System.**

- **Role** Design &Development

- **Team Size:** 12

Description: Rajasthan Accountability Assurance System.

- ✓ GPS enablement of Vehicles with Real-time movement tracking on here Map in 100 government vehicles of Jaipur District Administration.
- ✓ Display the real-time location of vehicles on maps with map tiles and SatelliteImagery
- ✓ Display the vehicle and driver's information
- ✓ Monitor when moving assets enter or leave a geographic area.
- ✓ Use calculated isoline (drive-time) areas, buffered route corridors and HERE boundaries (administrative, postal etc) as geofence shapes.
- ✓ Visualize real-time traffic and weather conditions along the route.
- ✓ Display of real-time traffic on the application.
- ✓ Calculate km's travelled, and each driver's daily hours of service via route matching
- ✓ Additional road data such as speed limits and traffic signs can be accessible in the application.

### **Responsibilities:**

- ↳ Understanding and designing the screens as per the requirements in java script ajax json.
- ↳ Programming and Implementing the application and functionality using here map
- ↳ Handling and solving all technical as well as logical problems in the team.

- **Project** : **Watch NTrack**
- **Role** : Design & Development.
- **Team Size** : 4

Description: Watch N Track is admin panel which contains three roles like Admin, Company and User. Admin can add companies, marks, gestures to the system. Company can add user under him and monitor user activity on admin panel with Google map API.

The project uses J2EE technologies Like, Servlet, JSP, Struts2, and MySQL as Database with MySQL Workbench tool.

#### **Responsibilities:**

- ↳ Understanding and designing the screens as per the requirements in JSP.
- ↳ Programming and Implementing the application and functionality using Java, J2EE, Struts2.
- ↳ Creating and managing the database using MySQL.
- ↳ Handling and solving all technical as well as logical problems in the team.

- **Project** : **Market Trainer analysis**
- **Role** : Design & Development.
- **Team Size** : 2
- **Description:** Market Trainer analyzer System has web application in which provide to store department wise data.  
It aims to collect accurate real-time data relating to transactions of physical stock items for enhancing production life cycle management.
- To provide a convenient way to store Material details.
- To automated department wise report generation.
- Generate product Charts. To give production department an easy way in doing information maintenance and updates.
- The project uses J2EE technologies Like, Servlet, JSP, Struts2, and MySQL as Database with MySQL Workbench tool

#### **Responsibilities:**

- ↳ Understanding and designing the screens as per the requirements in JSP.
- ↳ Programming and Implementing the application and functionality using Java, J2EE, Struts2.
- ↳ Creating and managing the database using MySQL.

Handling and solving all technical as well as logical problems in the team

## Academic Qualifications:

- Masters in Computer Application in Savitribai Phule Pune University 2015 Percentage:56%.
- Bachelors in Computer (BCA) from University of Kota in 2012 Percentage72.23%.
- Completed 12<sup>th</sup>from Rajasthan Board of Secondary Education in2008
- Secondary from RBSE in2006.

## Extra\_Curricular Activities

- Social Services(ISKCON).
- Participated as Master of Ceremony, Guest Coordinator& Volunteer for various events like Convocation Ceremony, Seminars, and Cultural Festivals etc.
- Participated in Drishti –ISKCON Pune’s Mega Youth Fest2016.

## Strengths

- Reading New Technology And New Framework.
- Effective team player, ability to adjust in new environment easily and like to challenge my own limitations.

## Personal Details

Full Name	Surendra Kumar
Pan No	CYRPM8452P
Date of Birth	June 16, 1988
Gender	Male
Marital Status	Married
Nationality	Indian
Language Known	English, Hindi
Address	H.N 163 Mahesh Nagar Jaipur 302015

## Declaration:

I do hereby declare that the particulars of information and facts stated here in above are true, correct and complete to the best of my knowledge and belief.

Place: -Jaipur(Raj)  
Date: -
