CAREER OBJECTIVE

Seeking employment in an organization where I can implement my academic and practice knowledge with dedication, team spirit and co-operation. Hoping to grow with the organization and to perform the best in the task assigned.

Technical Skills

- Designing website layouts using **HTML**, **CSS** and **JAVASCRIPT**.
- Development Mini projects using **PHP**.
- Created projects using Databases **MYSQL**.

LANGUAGE	C, C++ ,PHP, JAVA BASIC
FRONT END	HTML, CSS, JAVA SCRIPT
DATABASE	MYSQL
TECHNOLOGY	ASP.NET
PACKAGES	Microsoft Office , WAMP Server ,XAMPP

Basic Academic Credentials

Qualification	Board/University	Year	Percentage
MCA	DR.RAM MANOHAR LOHIA AVADH UNIVERSITY	2020	65%
BCA	DR.RAM MANOHAR LOHIA AVADH UNIVERSITY	2017	59.6%
12 th	UP Board	2012	62.6 %
10 th	UP Board	2010	57.8%

PROJECT DETAILS

1. Blood bank management system
2. Time table generator system

Project name	BLOOD BANK MANAGEMENT SYSTEM
Platform	PHP using MYSQL

The blood bank management system is great project. This project is designed for successful completion of project on blood bank management system. The basic building aim is to provide blood donation service to the city recently. Blood Bank Management System (BBMS) is a browser based system that is designed to store, process, retrieve and analyze information concerned with the administrative and inventory management within a blood bank. This project aims at maintaining all the information pertaining to blood donors, different blood groups available in each blood bank and help them manage in a better way. Aim is to provide transparency in this field, make the process of obtaining blood from a blood bank hassle free and corruption free and make the system of blood bank management effective.

Project name	TIME TABLE GENERATOR SYSTEM
Platform	PHP using MYSQL

Many colleges use manual way of preparing timetables with large number of students is very time consuming. This usually ends up with various courses clashing this may be either at same room or with same teachers having more than one course at a time. These are just due to common human errors which are very difficult to prevent in the processes. To avoid these problems people usually taking the previous years' timetable and modifying it but still it is a difficult job to do incorporate changes. To overcome all these problems we propose this system. This system will take various inputs like details of students, subjects and classrooms and teachers available, depending upon these input it will generate possible time-table, making the utilization of all of these resources in a way that will best suit any of constrains of college rules.

Interpersonal Skill

- ❖ Quick learner and Responsible.
- ❖ Ability to rapidly build relationship and set up trust.
- ❖ Confident and Determined.
- ❖ Ability to motivate and lead.
- ❖ Ability to cope up with different situations.

Personal Details

- ❖ **Father's Name** :Mr. Amrendra Srivastava
- ❖ **Permanent Address** :3/4/6 teli tola rikabganj,Ayodhya, Uttar Pradesh-224001
- ❖ **Date of Birth** :27-04- 1994
- ❖ **Language Known** :English and Hindi.
- ❖ **Marital Status** :Single
- ❖ **Nationality/Religion** :Indian
- ❖ **PASSSPORT** :on process

Other Interests & Hobbies : Listening to music, Meeting Friends and Adventure trip

Declaration

I do hereby declare that the above information is true to the best of my knowledge and belief.

Saurabh Srivastava
