## PROFESSIONAL EXPERIENCE

---

### Company 2:

**Future Career Solutions Pvt. Ltd. Bhubaneswar SAP ABAP Consultant from Oct. 2018 to till now**

### Project Details #1:

<b>Client</b>	:	<b>BEEKAY Steels Limited.</b>
<b>Role</b>	:	<b>ABAP Consultant</b>
<b>Sap Version</b>	:	<b>ECC 6.0</b>
<b>Duration</b>	:	<b>June 2020 to till now</b>
<b>Position</b>	:	<b>ABAP Consultant</b>
<b>Location</b>	:	<b>Bhubaneswar, Orissa.</b>

**Client Profile:** Beekay Steels Ltd, the mining leaseholder is having an experience of Mining & Marketing of iron ore for a period of more than two decades. The leases are mining ore to cater to the needs of the captive sponge iron plant having a capacity of 0.5 MTPA and an integrated steel plant. The iron produced from this mine and steel is also being supplied to local & overseas.

### Roles & Responsibilities

#### REPORTS

- Developed ALV report which retrieves the information about sale data of Plants and divisions for certain period of time which is given by user along with all tax calculation of GST retrieve from various tables like VBRK, VBRP, PRCD\_ELEMENTS, MARA, MARC etc.
- Developed ALV report of Bible Report for certain Plant for certain period of time which is given by user which have all details about from PR to Payment details along with MM, QA, FI details.
- Changes done in various report and FM due to implementation of SAP HANA because KONV, BSEG table changed to PRCD\_ELEMENTS, ACDOCA table respectively. And MATNR length changed from CHAR 16 to CHAR 40.
- Developed new auto mail report for sending the details of pre-hiring, hiring, confirmation and separation details daily basis.
- Developed classical reports and ALV reports which retrieve the information about customer's general data partner functions and document type.
- Developed on interactive report to display the details regarding material master.
- Developed on ALV report which shows purchase order, vendor and goods receipt information for a vendor.
- Developed report in ALV grid format retrieving the billing status of the delivery. By default it retrieves the deliveries not yet invoiced and displays the deliveries item wise, created by, created on, material, material description, delivery quantity, sales unit, goods movement status and its text and billing status and its text.
- Developed editable ALV on Material Master Data.
- Worked on several reports for performance tuning.

#### SMART FORMS

- Designed and developed a Smart Forms to display purchase order data according to client specification.
- Handled multiple Purchase order documents in Smart Forms.

#### Exits (Custom Exits and User Exits)

- I worked on T-code PA30 of Organisational Assignment because of adding two new fields of MIS & Garnet Code. Because after this enhancement HRD will take care of MIS & Garnet Code of all Field Force employees. These codes are required for Incentive purpose of organisation.
- I worked on enhancement of T-code VI01 because after HANA implementation KONV table changed to PRCD\_ELEMENTS table thus all tax breakup showed null value.

## **BDC (BATCH DATA COMMUNICATION)**

- BDC Created for T-code FB60 for parking the invoice after that Using FBV0 T-code it will post. This Scenario comes to screen because for audit trail one is maker and another is checker for invoice posting.
- BDC created for T-code F-02 to update payment details about Vendor to Vendor, Customer to Vendor, and Customer to Customer.
- BDC created for PA40 for create employee, and for this I have also created a RFC report which take all basic details from Dot Net server of an employee which is require to create an employee after that my BDC created an employee and again send the employee number as well as Offer Letter which is generated by Sap system and push again to Dot Net server.
- BDC created for T-code KS02 for description change. As well as for T-code KP26 for update the details.

### **Project Details #2:**

**Client** : **KJS Ahluwalia Steel & Power Division.**
