- Used HTML, JavaScript and AJAX for developing Controls in web forms .
- Worked intensely on the User Interface.
- Effective in working independently and collaboratively in teams.

## CORPORATE PROJECT EXPERIENCE

- **PROJECT 1: MANAGEMENT INFORMATION SYSTEM(MIS)**

**Type:** Web Based Application

**Clients:** District Co-operative Banks, Urban Co-operative Banks and State Co-operative Banks

**Description:** MANAGEMENT INFORMATION SYSTEM(MIS) is a banking domain application. In this application people deposit and borrow money from a bank every day. There are different types of deposits having different tenures. So, loans are given for short-term, medium-term and long-term purposes. All these information is consolidated on daily, weekly, fortnightly, monthly, quarterly, half yearly and annual basis. This information is submitted by banks to RBI and stock exchanges periodically where their stocks are listed in the form of report. All these data are built into an information system which provides insight to policy framers in a bank.

**Responsibilities:** Designing, Coding (ASP.NET/C#), Creating Database object and Testing of the project.

**Key Technologies:** ASP .Net with C#, HTML, CSS, JavaScript, MS-SQL Server-2014.

- **PROJECT 2: CENTRAL KNOW YOUR CUSTOMER (CKYC)**

**Type:** Web Based Application

**Clients:** District Co-operative Banks, Urban Co-operative Banks and State Co-operative Banks

**Description:** CENTRAL KNOW YOUR CUSTOMER (CKYC) is a banking domain application. Central Know Your Customer is the process of verifying the identity of customer. It is an application where banks obtain information about their customers' identity thereby ensuring that bank services and government regulations not misused. The KYC procedure is used when bank customers open accounts. Banks are also required to periodically update their customers' KYC details.

The purpose of KYC is to reduce the risk of identity theft, money laundering, financial fraud, and the financing of criminal organizations. KYC helps manage risks and helps to understand customer behaviours. This importance of the KYC process requires banks to collect and verify basic details of customers which includes their name and authorized signatures, legal status of an entity or person, the identity of owners on the account (ID Proofs) and other information depending on FI risk approach.

**Responsibilities:** Designing, Coding (ASP.NET/C#), Creating Database object and Testing of the project.

**Key Technologies:** ASP .Net with C#, HTML, CSS, JavaScript, MS-SQL Server-2014.

- **PROJECT 3: PROPERTY LAND MORTGAGE (PLM)**

**Type:** Web Based Application

**Clients:** District Co-operative Banks, Urban Co-operative Banks and State Co-operative Banks

**Description:** PROPERTY LAND MORTGAGE (PLM) is a banking domain application. This application offers loan to individuals/firms/companies against their existing property. Typically, the purpose of the loan is business expansion, debt consolidation, etc., A Loan Against Property helps you unlock the hidden equity in your property holdings. You can borrow money using your property as collateral and repay it in EMIs over time. This allows you to hold on to your property and, at the same time, raise funds for your business.

**Responsibilities:** Designing, Coding (ASP.NET/C#), Creating Database object and Testing of the project.

**Key Technologies:** ASP .Net with C#, HTML, CSS, JavaScript, MS-SQL Server-2014.

- **PROJECT 4: SALES AND INVENTORY MANAGEMENT SYSTEM**

**Type:** Web Based Application

**Client:** Jeevandeep (Printing Press)

**Description:** Sales and Inventory Management System helps to manage the details of inventory, Customer, Purchasing, Sales, Payment. This application is totally built at administrative end and only the administrator is guaranteed the access. The purpose of this application is to reduce the manual work for managing the Inventory, Customer, Supplier and Purchasing.

**Responsibilities:** Designing, Coding (ASP.NET/C#), Creating Database object and Testing of the project.

**Key Technologies:** ASP .Net with C#, HTML, CSS, JavaScript, MS-SQL Server-2014.

- **PROJECT 5: CIRCULAR MANAGEMENT SYSTEM**

**Type:** Web Based Application

**Clients:** District Co-operative Banks, Urban Co-operative Banks and State Co-operative Banks

**Description:** Circular Management System is a banking domain application. This system helps with creation, controlled dissemination to either a group or the entire staff, retrieval in seconds, giving the past lineage of relevant Instructions, be search and query-friendly and tell us who all can read the circulars.

**Responsibilities:** Designing, Coding (ASP.NET/C#), Creating Database object and Testing of the project.

**Key Technologies:** ASP .Net with C#, HTML, CSS, JavaScript, MS-SQL Server-2014.

## EDUCATION

<b>B.Tech (CS) + Integrated M.Tech (CS)</b> <i>Jayoti Vidyapeeth Women's University, Jaipur</i>	(2013-2017) 65%
<b>Diploma in Computer Science (CS)</b> <i>Jayoti Vidyapeeth Women's University, Jaipur</i>	(2010-2013) 70%
<b>High School Examination</b> <i>Delhi Public School, Vindhyannagar</i>	(2010) CGPA 5.4

## RESEARCH PAPER

<http://ijesc.org/upload/48e735d73c223dde760a04f47153f0c4.Smart%20Self-Diagnostic%20based%20Hospital%20Management%20System%20for%20Rural%20Areas.pdf>

## ACADEMIC PROJECTS

### Project during M.Tech (January 2017 – June 2017)

- EVM based on Biometric Identifiers using MATLAB: In this application Biometric identifiers are used to provide better security in EVM. By using Biometric identifiers like Face Recognition and Fingerprint Sensor which are linked with Aadhar card, votes are stored electronically in EVM ballot box. Thus, it cannot be hacked easily because Biometric identifier cannot be easily misplaced or shared. This application can also be used by Handicapped person by just clicking their picture and matching it with the provided information which is stored in the Database.

### Project during B.Tech (April 2016 - June 2013)

- Advance Hospital Management: The system aimed to the Self-diagnosis with advanced hospital management system to provide a self test to the patient, if hospitals are not available at nearby places using J2EE.

### Projects during Diploma (April 2013 - June 2013)

- Designed a website on .net platform using C# language from NTPC/SSTPS, Singrauli.

## TECHNICAL SKILLS

- Programming Language: C#, HTML, CSS, JavaScript
- Microsoft Technologies: Dot Net, ASP.Net, C#.Net
- Database : MS-SQL Server 2008-2014
- MS Office : MS Word, MS PowerPoint, MS Excel
- Application Server : IIS

## ACHIEVEMENTS

- Recognized as a Microsoft Technology Associate: Networking Fundamentals.
- Recognized as a Microsoft Technology Associate: Web Development Fundamentals.

## HOBBIES

- Interior Decoration
- Handmade greeting cards

## PERSONAL DETAIL

Father's Name : M.B. GUPTA  
Date of birth : 07/03/1994  
Gender : Female  
Marital Status : Unmarried  
Languages Known : English, Hindi  
Permanent Address : Gomti Nagar, Lucknow (UP)-226010  
Present Address : Gomti Nagar, Lucknow (UP)-226010

### **Declaration:**

I hereby declare that the above information furnished is true to the best of my knowledge and belief.

Place: Lucknow
