## Project Handled -

### Project 1 – Truth Point(Health Care Domain)

**Description** - Truth point comes in health domain. It is a web based application. This application mainly used by hospital management. By using this software hospital management can request for facility which will be useful for hospital and patient and also schedule round for particular patient, staff and location. By using this software, staff can manage all the activity of patient like admit, discharge and transfer and re-admit. This software is very user friendly.

**Technology** - .Net Programming Language

**Testing Technique** – Manual Testing

**Data Base** – MySQL

**Role** - QA

### Responsibilities -

- Gather requirements from the clients and analysis those requirements.
- Developing Test Scenarios, Test cases and Test Data based on requirements.
- Execution of Test cases at iteration level.
- Perform regression testing on each browser at iteration level.
- Logging defects using tool i.e. VSTS.
- Preparing and Sending testing reports after iteration.

**Project 2 – Magnum(Travel Domain)**

**Description** - This is web based and user friendly software. Magnum is one of the contracting module. In side Magnum user can load self-inventory and create rates, room and season. In magnum, there are some 2 important feature i.e. extranet, fulfillment and clone feature.

**Technology** - .Net Programming language

**Testing Technique** - Manual Testing

**Data Base** - MySQL

**Role** – QA

**Responsibilities -**

- Understand the requirements and functional specifications of the application.
- Create functional and non-functional test cases.
- Execute tests based on provided test cases.
- Provide feedback and report results of testing to stakeholders.
- Effectively use test management tool to maintain and execute test scripts
- Perform functional and regression testing.
- Communicate regularly with the team and provide reports on own test results.
- Exposure to test management tools (e.g. VSTS).
- Performed API testing(CRUD Operations).

**Other Projects -**

- TravoCRM (Travel Domain)
- Punjab Foundation (Learning Management System)
- Madhur Events (Event Management System)

**Personal Details -**

- **Candidate Name** – Priyanshe Yadav
- **Father's Name** – Mr. Pradeep Yadav
- **Date of Birth** – 22-March-1994
- **Marital Status** - Single
- **Nationality**- Indian
- **Current Address**- Pune , Maharashtra

**Declaration -**

I hereby declare that the above-mentioned information is correct up to my knowledge and I bear the responsibility for the correctness of the above-mentioned particulars.
