

## **PRIYANSHU SAXENA**

### **Module Lead**

<b>Skills:</b>	<b>Microsoft CRM, PowerApps (Model-Driven and Canvas), Power Portals, Power Automate, Azure App Services, .Net Framework (ASP.NET MVC), C#, Web API, SQL Server, JavaScript, AGILE SCRUM methodology</b>
----------------	--

### ***PROFESSIONAL EXPERIENCE***

---

**MINDTREE LIMITED, PUNE, INDIA**

March'15- Till Date

#### **Project Details**

---

- **A reputed technology group based in United States** Nov'17-till date
  - Worked in the development team of various applications involving critical application fixes, feature development and migration to newer technologies
  - Leading the migration activity of existing application (built using AngularJS, Web API, SQL Server) to Model-Driven App and Power Portals
  - Responsible for supporting existing application requiring extensive work on Azure Web Jobs, Web API, SQL Server independently and delivering them on time for a successful sprint
  - Successfully migrated another application to PowerApps effectively using Model-Driven App, Power Automate and integrated Power BI with Dataverse
  - Following AGILE methodology for development process effectively
- **Mindtree Orchard Lead Program** Aug'17-Oct'17
  - Led and mentored a team of 18 campus minds, helping them to grasp basic concepts and guiding them towards a self-learning approach
  - Played the role of a Scrum Master in the Project Track and ensured the Sprint was completed smoothly
  - Recognized with a "Partnership Badge" award for voluntary work in design and development of a microsite developed in Mindtree
- **Delivery Platform** Jun'15-Jun'17
  - Worked in the development team of an application which provides solutions, detailed data on team performance and overall analysis to teams in Mindtree which helps them manage and execute their projects in the best possible way
  - Worked efficiently on independent modules, involving technologies like ASP.NET MVC, AngularJS, JavaScript and SQL
  - Also involved in thorough manual testing and writing MS Unit Test Cases in Visual Studio before the code was deployed in production

#### **Trainings**

---

**Mindtree Kalinga, Bhubaneswar**

Mar'15-May'15

- An exhaustive training program conducted in a residential campus, focusing on various technical (C#, Web Development) and inter-personal skills with regular assessments, practical assignments and one-on-one viva voce. A comprehensive result document was generated at the end of the training specifically listing out the skills acquired by the trainee.
- Recognized with the title of "Mr. Campus Mind" for outstanding performance and communication skills during the fresher's training
