N Vamsi

Mobile No: 9182175565

Email: iamvamsin@gmail.com

CAREER OBJECTIVE

To work in a creative, challenging team environment and achieve a growth-oriented Career in an organization where, I can contribute to the growth of the organization and my Technical skills and knowledge will always be utilized.

ACADEMIC QUALIFICATION

➤ **B. Tech (CIVIL)**

CGPA: 7.28

Siddhartha Institute of Engineering and Technology, Puttur. “2017 – 2021”

➤ **Intermediate:**

MPC: 79%

Sri Chaitanya Junior College, Tirupati, 2017

➤ **SSC:**

CGPA: 7.0

A.P.S.W.R.E School, Ramakuppam, 2015

TECHNICAL PROFICIENCY

- SIEM Tool : IBM QRadar
- Ticketing Tool : Jira
- Server Operating System : Windows

PROFICIENCY IN CYBER SECURITY

- Extensive knowledge in different kind of cyber-attacks.
- Knowledge of networking (TCP/IP, and security) OS, (Windows, Linux)
- Knowledge in Vulnerability Management, phishing emails.

PROJECT

EXPERIMENTAL STUDY ON PARTIAL REPLACEMENT OF PLASTIC WASTE WITH COARSE AGGREGATE IN CONCRETE

One of the major environmental problems facing by the world is the disposal of the waste Plastics into nature; this adversely affects the geological conditions of the soils. In day to day living process, the use of plastics increasing substantially for packing materials and in the production of bottles, polythene sheets, packing bags etc.,. This results in production of plastic wastes from all kind of livings and from industrial manufacturers. On the other side, the Indian construction industry is facing problems due to insufficient and unavailability of construction materials. So,there was a need in search for new construction materials. The search for new construction materials leads to partial replacement of plastic as coarse aggregate in concrete.

The Tests that are going to be performed are consistency, workability, compressive strength, water absorption, split tensile strength and specific gravity of plastic aggregate. As 100% replacement of natural coarse aggregate with the plastic coarse aggregate is not feasible, partial replacement of coarse aggregate with plastic aggregate is done and is examined. In this present experimental study there will be a comparison between the properties of conventional concrete with the replacing concrete. Here all the tests are conducted by using M25 mix proportions.

Role: System work, Documentation and Supporting.

AREA OF INTEREST

- Cyber Security, Security Monitoring.
- Phishing emails.

CURRICULAR ACTIVITIES

- Participated in National level Quiz on **“Remote Sensing and GIS”**.
- Participated in **E-Quiz** on **Quantitative Aptitude**.

PERSONAL SKILLS

- Ability to work under pressure.
- Decision making.
- Adaptability.

PERSONAL DETAILS

- Date of birth : 12/06/2000
- Father's name : N ANANDAIAH
- Mother's name : N BUJJAMMA
- Nationality : Indian
- Languages known : English, Telugu, Tamil
- Hobbies : Listening Music, Traveling.
- Address : Muni Reddy Kandriga (v)
Karveti Nagaram (M)
N R Kandriga (P)
Chittoor (Dst), AP.

DECLARATION :

I hereby declare that the above-mentioned information is correct up to my knowledge and I bear the responsibility for the correctness of the above-mentioned particulars.
