PROJECTS

ECOMMERCE WEBSITE;

- It is a shopping cart where a customer has a whole new good experience for the shopping and also bridges the gap between shopping and buying. Created using JavaScript, HTML5, CSS, Bootstrap4, Ajax, Json and fetch API. Link to working project <https://shabbohussain21.github.io/Shopping-Cart1/>

PORTFOLIO WEBSITE;

- It is a portfolio website, which you will get to know about my all projects, skills, experience related details. Created using JavaScript, HTML5 and CSS.
- It is the link to the working project <https://shabbohussain21.github.io/Portfolio/>

COVID-19 LIVE CASE TRACKER;

- It is a COVID19-LIVE CASE TRACKER where we can get Last Updated, Time All, Country, Total Confirmed Active, Total Recovered and Total Deaths. Created using JavaScript, HTML5, CSS, Bootstrap4 and fetch API. It is the link to my working project [https://shabbohussain21.github.io /covid Cases](https://shabbohussain21.github.io/covid%20Cases)

E- Commerce

- This project is basically an Online grocery web application where any user can purchase grocery items. It has a separate section for admin to manage or update the offer and price. When someone places any order, it goes to the admin to review the order and pass it to the fulfilments for delivery. There is also a live tracking section for any order as well as user continuous updates with mobile and email notification about their order. Used Git for code storage.
- As Backend developer I have worked on the different types of login and registration process, payment gateways, payment integration. Developing the admin section with various functionality and configure with CRM to manage the Order.

ACADEMIC CREDENTIALS

2019 (B.Sc.) in Computer Science Engineering ► Adamas University, Kolkata, West Bengal with 68.9 CGPA.

AWARDS & RECOGNITIONS

- Commended with Pursue Excellence Award from Adamas University in 2020.
- Successfully received AU Vihaan 19 award for maintaining good behaviour in hostel from Adamas University in 2019.

PERSONAL DETAILS
