WORK EXPERIENCE-

Organization: Department of Legal Affairs, Ministry of Law and Justice

Duration: 25th August' 15- Till date

Profile: Senior Technical Support Engineer (equivalent to Sr. Software Engineer)

Job Description: Currently, handling **Digital India Project- Legal Information Management and Briefing System (LIMBS)** going on in Department of Legal Affairs headed by the Hon'ble Union Minister (MoLJ), Hon'ble Minister of State (MoS) and the Law Secretary.

Technology Used: ASP.NET

Framework: 3.5, 4

Database used: SQL Server 2008 R2

Tools Used: Visual Studio 2010 Ultimate, SQL Server 2008 R2

Role Handled:

- **Technical Team Lead-** Manage a team of 12 IT professionals.
- Successfully Implemented IT project namely Legal Information Management & Briefing System (LIMBS) in 62 ministries and 300 departments of Government of India.
- Regular meetings with the Secretary (Coordination) and the Joint Secretary (Coordination), **Cabinet Secretariat** regarding progress of ministries in LIMBS.
- **Mapping of the client's requirements with our package software-** One to one discussion with the officials of different ministries for their requirements. Then mapping their requirements with our system and bring out best case solution which can fulfil both the requirements.
- **Meeting with the Development Team-** Discuss and explain logic and process flow of the client requirement (to be developed) to the development team. Further, test the module developed by the development team.
- **System Support and Hands-on Trainings-** Conduct and provide trainings to the officers of different ministries/departments/PSUs regarding the developed packages and troubleshoot their technical queries on mails and calls. Till date, organized more 1000 presentations/training sessions/query sessions for the ministry officials (users)
- **Documentation-** Preparation of documents related to user requirements, modifications done by the development team, system manuals and reports, test reports, helpfiles, presentations, DO Letters, Office Memorandums (OMs), Notices, Circulars, Press Notes, Talking points for minister, Law Secretary and Joint Secretaries, etc.

Technical Expertise-

- **Analysis of Data:** Under this, perform data migration, data cleansing, data analysis, data loading and data verification before porting of the data.
- **Logic and System Design-** Prepare process flow diagrams and charts by mapping the current flow of the package software. Create complete architecture with the interfaces of the requirements (new module/utility).
- **Development-** Developed add-on modules of LIMBS known as 'Advocate Module' and 'Employee Management Module' in asp dot net framework 3.5 and SQL Server 2008 R2.

- **Manual Testing:** After every modification done in the application, test the modifications by creating scenarios and test cases.
