Work Experience:

Total Experience : 2.8 years

Company:	Infosys Ltd.
Designation:	Senior Systems Engineer
Duration:	October 2018 – till date

Project Experience:

Working for Healthcare client :

1. Working on Upgrade Application. (JAVA , SPRING AND HIBERNATE)
Given the responsibility of handling the backend of the application. The Objective of the development part is as follows:
 - a. Adding various new functionalities according to client requirements.
 - b. Used Eclipse for development.
 - c. Maintaining and Updating the JIRA trackers.
 - d. Having continuous meetings with the client, to gain more clarity on the requirements.

2. Worked on the Healthcare project On SSIS packages where we had to extract Faultless data from the warehouse. The Objective of the development part is as follows:
- Responsible for classifying data into different groups and subgroups based on description provided by the user.
 - Used Visual Studio 2017 for creating SSIS packages.
 - Wrote Complex SQL queries to improve performances as the volume of data was heavy.

Shopping site (Infosys Training project) :

Worked on a shopping site project where we had to create the backend and frontend of the website using spring , hibernate and angular. We used postman API for testing.
