| • Web Technologies | : HTML, CSS, JSON |

Projects

Projects undertaken during work tenure in **Acloudzyn Technologies**.

Project Title : **Office Modular Pro**
Role : Software Developer
Environment : Java, Spring Boot, Spring Data JPA, RESTful Web Services.
Database : MySQL 5.0
IDE : Eclipse
Server : Apache Tomcat 8.0
Description : This project is developed for office furniture sell and buy. Here we sell new office furniture as well as old furniture also. This helps for many new organizations, so wants to stand up there small and medium scale business. Also helps to sell their office furniture online to new needy buyer.

Responsibilities : Responsible for coding and developing using Spring.
Writing services files and maintain database.
Designing Controller, Service and Repository specific Java Classes

Project Title : **Dairy Finance**
Role : Software Developer
Environment : Java 7, JSP, Spring MVC, Hibernate.
Database : MySQL 5.0
IDE : Eclipse
Server : Apache Tomcat 7.0
Description : The dairy farm sector is among the biggest industries in rural India, and individuals who wish to start and operate their own farms or make improvements to their existing farms can now make the most of dairy farm business loans. The reasons for taking out a loan like this can be to establish small dairy units that have two to four mulch cattle, to collect, process, and distribute milk, to establish a new medium or large dairy unit, to manufacture milk products, to construct cattle shad, or to buy crossbreed or improved mulch cattle.

Responsibility : Responsible for coding and developing using Spring, JSP.
Designing Controller, Service and DAO specific Java Classes
Writing hibernate mapping files and maintain database.

Project Title : CityBike
Role : Software Developer
Environment : Java 7, JSP, Spring MVC, Hibernate
Database : MySQL 5.0
IDE : Eclipse
Server : Apache Tomcat 7.0
Description : This system is named as City Bike. This system designed to help the customers to take a bike or two wheelers on rent. When we go on any trip outside the town or country we want to be free of time so instead of going through metros or taxis we prefer to have our own vehicle for rent. Using this system vehicle owner can register as seller and customers who wants to take bikes on rent can register themselves as renters and can take any bike on rent.
Responsibility : Designing Controller, Service and DAO specific Java Classes.
Writing hibernate mapping files and maintain database.
