www.marvelgeospatial.com

PROJECT DETAILS

From June'2013 to Feb 2016 Marvel Geospatial Solution Pvt. Ltd.

Project Name : NLRMP, (Bihar)

Objective : The main objective of the project is to develop a modern, comprehensive and transparent land records management system in the country

with the aim to implement the conclusive land-titling system with title guarantee, which will be based on four basic principles, i.e.,

- (i) A single window to handle land records (including the maintenance and updating of textual records, maps, survey and settlement operations and registration of immovable property)
- (ii) The "mirror" principle, which refers to the fact that cadastral records mirror the ground reality
- (iii) The "curtain" principle which indicates that the record of title is a true depiction of the ownership status, mutation is automated following registration and the reference to past records is not necessary
- (iv) Title insurance, which guarantees the title for its correctness and indemnifies the title holder against loss arising on account of any defect therein.
