EXPERIENCE

Vasudha it solutions pvt. ltd, Pune— *Software Developer*
From June 2019 - to current
Projects :-

❖ *Enterprise Resource Planning(ERP)*
Technologies: Asp. Net , C#,
Jqyery,Web services ,Ajax,
HTML, CSS, Bootstrap
Backend : MS SQL Server.
Description: Enhancement of existing ERP application as per client requirement. Code fixing, end to end testing & app deployment was in my scope for this project.
Added a few new functions in ERP applications such as Reports, adding signatures in purchase order pdfs, Tally integration etc.

❖ *Seagull-Sales (Premium + Service)*
Technologies: C#.Net, CSS,
Jquery, HTML, Bootstrap,
Ajax .
Backend : MS SQL Server.
Description: Seagull-Sales - Sales monitor tool has been designed specifically for sales and marketing employees, which helps them to send their reports faster.
Added SMS gateway in existing application, made order page booking mobile compatible. Bug fixing, enhancement into existing app, testing, deployment was my scope for this project.

❖ *Seagull-Inventory :*
Technologies: C#.Net, CSS,
HTML, Bootstrap, Ajax .
Backend : MS SQL Server.
Description Various Masters (like Material Master, Product Master etc.) help define structure and outline of the software. Incoming material is added into stock after quality check document, and can be issued against requirements. Balance stock is shown with value. Stock movement report, and min-max level alerts are important reports and Tally integration etc.
