PERSONAL PROJECTS

Online Canteen System (03/2020 - 06/2021)
- This Project in Python works as a Online food ordering system Nowadays people don't have much time to spend in canteen by just waiting for food for that we have developed this web application to save their time by online order.
- Programming Language : Python , HTML , CSS
- Framework : Django
- Database : SQLite

Car Service System (09/2020 - 02/2021)
- The simple concept behind the Mobile Car Wash service is using idle parking time while owners leave their cars to carry out other activities, such as shopping, working, entertaining, studying, etc.
- A car service is a maintenance check-up that's carried out at set time intervals (at least every year) or after the vehicle has travelled a certain number of miles. The car manufacturer specifies the service intervals by creating a service schedule that you should aim to follow.
- The service itself includes replacing aging parts and fluids as well as visual inspections to check key components are still working properly.
- Programming Language : Python, HTML, CSS
- Database : Sqlite
- Framework : Django

SKILLS

Programming Language : Python, Java

Web Technology : HTML and CSS   Database: SQL

Operating System : Windows, Linux

Angular, React JS, JavaScript

TOOLS

VB.Net

NetBeans IDE

Android Studio

Microsoft Office

STRENGTH

Positive Attitude

Determined & Hardworking capability

Flexible in Nature

Team Player

CERTIFICATES

MVC (UDEMY) (09/2019 - 10/2019)
MVC stands for Model, View, and Controller. MVC separates an application into three components - Model, View, and Controller. Model: Model represents the shape of the data. A class in C# is used to describe a model. Model objects store data retrieved from the database.

Web Technology (09/2020 - 10/2020)
Web technology refers to the means by which computers communicate with each other using markup languages and multimedia packages. It gives us a way to interact with hosted information, like websites. Web technology involves the use of hypertext markup language (HTML) and cascading style sheets (CSS).
