## Live Projects worked upon:

### Minor Project

| | |
|---|---|
| Project Title: | Computer Lab Management System |
| Duration: | 5 Months |
| Environment: | VB.NET and SQL Server |
| Role Played: | Designer, Developer and Tester |
| Methodology: | Waterfall Model |
| Team Size: | 2 |

Description:

The goal of developing this system was to manage the Computer labs of institute by providing each student a unique user id and password so that the lab in-charge can maintain login as well as session record of every system. It can help the faculty to keep track of each and every student's activity and progress.

## Major Project

| | |
|---|---|
| Project Title: | Alumni Portal |
| Duration: | 6 Months |
| Environment: | Drupal, MySQL |
| Role Played: | Developer and Tester |
| Methodology: | Agile |
| Team Size: | 2 |

Description:

This system was developed to provide all the Alumni (already passed out students) connected to the Institute, resulted in sharing their experiences, views, ideas, guidance, motivations and strategies. Alumni portal allows old and new students of the college to communicate with each other. This allows students to know about each other and their current activities. This portal highlights the feature of communication, which will enable the current students to have interaction with the alumni of the college for getting various updates on current industry trends, Internship opportunity, sponsored projects and various referral opening in the corporate world. This portal will serve the cause of integrating all the stakeholders of Institute such as, Alumni, College students, Faculties.
