WORK EXPERIENCE

AWS & Devops Solution Consultant
Francium technology

06/2020 - 06/2021   *chennai*

Projects
- **Palkar matrimony:** The purpose of this website is to facilitate in finding a life partner for your children or your relatives and friends or yourself.

SQA engineer
Francium technology

08/2019 - 05/2020   *chennai*

Projects
- **Zen Reminder:** A Reminder app using react to focus on users work rather than being pensive about missing payments,meetings etc.A reminder can be set depending on user needs and he will be notified on the go which supports four languages (German,Spanish,French,English).
- **Soul Search:** We use the best of the technology for matching profiles. We work hard to ensure there are only authentic profiles in the system as we manually verify every profile. Artificial Intelligence technology makes our world even better. We also use bank grade security to keep your data safe.
- **Visualiser-II** This added value tool allows companies and organizations to analyze their networks (to the application layer) and interpret network usage. Furthermore, the Visualizer manages bandwidth consumption and traffic flow, etc.
