GAURAV SHUKLA

Software Developer

Hi, I'm Gaurav, it's really great to meet you. I'm a full-stack developer, working mainly on web applications. I have one 1.5 year of experience developing software using PHP, MySql, Laravel, Codeigniter, Angular, and web technologies such as HTML, CSS, Javascript, and jquery. I also have experience in all phases of product development from planning and requirement gathering, to implementing and testing. I have knowledge of the processes behind deploying enterprise-class software. I am currently looking for a position that would allow me to create new software and apps with my innovative ideas. I would like to use my experience to produce creative software that is competitive in the market and would benefit the organization.
