PROJECTS

Government Live project : rjit.org

I have worked on Government Live project. I have created this website for my own college. Rustamji Institute of Technology is a semi-government college affiliated to RGPV. It is one and only institute of Border Security Force in India. It is the WordPress website.

www.garagebuildings.com

Garage building is a family operated and owned business with 20 years history in Steel Buildings industry. Garage building is one of the premier distributors of metal buildings in United States.
I have worked on its Frontend and checked responsiveness on each device using HTML, SASS, jQuery, JavaScript. Basically it is a wordpress website and I have created it's theme.

https://busdemo.loca.la/

This website is Single page application. This is an angular website. I have worked on its Frontend and Api integration.
It is bus navigation web app (like Ola cab). I have used autocomplete places search and integrated Google map. Initially it shows all the routes of all the buses by fetching lat long from api.
It gives the direct or indirect route for start and end bus stops based on the current location and the destination.

ACHIEVEMENTS & AWARDS

Participated in International English Olympiad (IEO) and seeked 7th rank in Gwalior.

Awarded for the Live project which I have created for an NGO.

Awarded for the Best Employee in Pn infosys.
