Work Experience Details

Company	DPS Estern Pvt. Limited, Jamshedpur
Duration	Mar 2015 – Till Date
Client	TATA STEEL Limited, Jamshedpur
Company	Pioneer Computer Pvt. Limited, Jamshedpur
Duration	May 2012 – Mar 2015
Client	TATA STEEL Limited, Jamshedpur
Technology used	Oracle 10g, Toad, Asp.Net 3.5, JavaScript, Ajax, Css,BootStrap,JQuery
Operating System	Window
Responsibility	Involved in requirement gathering, Web page design with coding. Understanding the functional requirements implementing assigned modules. Actively participated in Integration testing in this modules.
Module	Recruitment
Details	In Tata Steel each year's recruitments take places like Trade Apprentices, Junior Engineer Training, Management Trainee etc. So my job is developing the Web

	pages as per the users' requirement.
Module	Holiday Home
Details	Holiday Home module is an online booking system for employees of Tata Steel, through these module users can book Guest House.
Module	ECBS (Enterprise Capability Building System)
Details	Enterprise Capability Building System (ECBS) is basically a training module, through these module employees get take the online test and improve own skill.
Module	IRIS (Industrial Relation Information System)
Details	In Tata Steel maintain some record related to the employees, which include personal record, training record, medical record, sepration record and some eventual record.

Project Undertaken

Project Name	Contract Wages Salary System(CWSS)
Front End	Asp.Net 3.5
Back End	Oracle 10g
Developed At	IGNOU
Purpose	MCA mini project
Role	Team Member
Responsibility	Involved in requirement gathering, SQL Creation, Web page design and coding.
Details	**CWSS** is future software focused on companies or organization having contract work mode.

Project Name	Integrated Cold Rolling Administrative System (INCAS)
Front End	Asp.Net 3.5
Back End	Oracle 10g
Developed At	Information Technology Services, Tata Steel, Jamshedpur
Developed For	TATA STEEL (C.R.M Division), Jamshedpur
Purpose	MCA Final Semester Project
Roles	Team Member
Responsibility	Involved in requirement gathering, SQL Creation, Web page design and coding.
Details	In Tata Steel for each financial year company maintain some record related to the employees, which include personal record, training record, medical record and some eventual record. The idea behind developing these projects is to provide the computer based platform to the employee of the CRM division. So I have designed two modules of this system to maintain those records and they are **Positional Training** and **HR** (Human Resource).
