[Chander Kant Katyayan]

To,
Hiring Manager

Dear Madam/Sir,

I would like to apply for the web developer desig in your organisation

I have experience designing ecommerce, service oriented, portfolio, custom needs websites and custom web app solutions. While much of my experience has been in the education sector, I have been working as an IT teacher/trainer for past 12+ years. I have very good hands on experience of Business Management and Development too. For past 4 years I have dedicated my efforts to honing my skills as a web designer/developer and has delivered 100+ successful solutions to a variety of requirements independently and as a team.

My responsibilities included the design and development of the solution, Client interaction, Team organisation, and Business Development [Marketing and Lead conversion].

Experience has taught me how to build strong relationships with all departments at an organization. I have the ability to work within a team as well as cross-team. I can work as a web designer/developer to resolve technical issues and implement technical enhancements, work with the development department to implement design and functional enhancements, and monitor site statistics and conduct search engine optimization.

At present I'am working as Sr. PHP developer cum CTO at AutoKartz Internet Private Limited, DLF Tower, Moti Nagar Delhi. My current take home salary is Rs. 50k per month.

Please find enclosed/attached my CV. I look forward to hearing from you.

Sincerely,

ChanderKant Katyayan
