PROJECT: - "AP SCHEMES" (Information of All Types Available Schemes)

Description: Most of the schemes introduced by our government to develop the economic growth of our state. But it's all goes into the dustbin just because of the officials could not take any appropriate action to share that information to the suitable peoples. So there is a secured and transparent system is needed to enable an arbitrary directly among the peoples and government. The proposed system is a "web-based application, which maintains all the information about the state and also maintains data i.e. which schemes are active."Users can access the system to get the proper information on the schemes and also able to apply through online for the proposed schemes.
