PROJECT:

SCAN TO LEARN TECHNOLOGIES PVT LTD   **OCTOBER 2019 - PRESENT**

➢ **Price Drop Alert:** Price Drop Alert for Magento 2 extension allows the customers to receive email alerts whenever a product is available at a lower price. Any customer can subscribe or unsubscribe for receiving price drop alert for any product. A customer just needs to enter their email address and click subscribe button.

➢ **Order Split & Merge:** The module adds OMS (Order Management System) feature to the Magento 2. With the use of this module, the admin can easily manage the orders and shipments by splitting and merging orders. With the help of this module, admin can cut the extra expenditures on the shipping. Also, it avoids many difficulties that a Magento admin faces in managing the order and shipping.

➢ **Learning Management System:** This module introduces a new product type, namely Course Product. It leverages the admin to create multiple trending online courses. For these courses, the admin can create multiple content sections and add new content, such as videos or pdf files under Content and Assignment, respectively. The main focus is to provide customers with a common arena where they can look for trending online courses and benefit from the same.

➢ **Attribute Based Split Cart:** After adding various products to the cart, the customer will see the split shopping cart on the store. All the products will get split or divided as per the attribute configured by the admin such as - color, manufacture, size, etc. Using this feature, the customers will be able to do separate checkout processes for different products.
