Personal projects-

- ### Creative Pepsi landing page-
  This is a creative Pepsi landing page that changes colors according to the color of the Pepsi bottle. I created this using HTML,CSS,Javascript.
  Github repo-https://github.com/Sumitakcode/Pepsi-creative-landing-page

- ### Color Flipper -
  Completed this project using HTML, CSS, Javascript. Color flipper will change the background to random colors, with the click of a button.
  Github repo-https://github.com/Sumitakcode/color-flipper

- ### Hospital Website-
  Completed a website using HTML, CSS, Bootstrap, Javascript.
  Github repo-https://github.com/Sumitakcode/hospital-website

- ### Food ordering website-
  This website has basic features with good graphics. I created this website using HTML, CSS, Javascript.
  Github repo-https://github.com/Sumitakcode/Food-ordering-website
