PROFESSIONAL PROJECTS

Project Title :1:- Online Library Management System

Tools   : MyEclipse and EditPlus

Duration   : 6 Months

Description: The project "Online Library Management System" is an online Library Management site for a specific College. This project registers the student of the College. The admin can register the company's details and companies can also register themselves for drives in the College.

This project thus will provide the details of last year recruited students as well as last about the companies who drove the campus. Project will also provide the details of the coming drives to the students who have registered.

Project Title :2:- CloudBox

Tools   : Eclipse ,Struct Framework ,Bootstrap

Duration   : 6 Months

Description: The cloudbox is a web based storage platform for storing and sharing information on the web. It can be used free of cost by any person. Information stored on the platform can be of following type:

➢ Public
➢ Protected
➢ Private
➢ The cloudbox contains following modules
➢ Policy Management
➢ Information Management
➢ User Management
➢ Facebook Integration
➢ Reporting

Project Title :3:- Pathology Labs

Tools   : Eclipse ,Struct Framework ,Bootstrap

Duration   : 4-6 working

Description: **Pathology lab** is especially incorporated to centralize entire database and modules of hospitals, clinics, & medical laboratories in a single unified interface. Information related to pre-booking, online receipt of request, billing of tests, reports delivery and many more can be easily accessed and maintained through this system.

eLab is one of the best web based **Pathology Lab Test Reporting Software** . It is designed in franchise based model as well as stand alone model.
